Objective

Motivated and detail-oriented Junior Software Developer with a strong foundation in software engineering and hands-on experience in web development and technical support. Adept at building user-friendly interfaces, troubleshooting complex issues, and collaborating with cross-functional teams to deliver high-quality software solutions. Seeking to leverage my skills in JavaScript, React, and other modern technologies to contribute to innovative projects and drive continuous improvement in a dynamic development environment.

Education

Southern Cross University

Mar 2020 - October 2022

Bachelor of Science: Information Technology

Majors: Software Engineering

Experience

Sodexo

Perth, WA

Service Desk Analyst

10/2023 – Current

- Provide first-level technical and operational support to end-users, effectively addressing issues related to User ID, application authentication, and other inquiries.
- Manage and document support tickets through CRM software, ensuring timely resolutions and maintaining high levels of user satisfaction.
- Conduct initial troubleshooting for software, hardware, and network issues, escalating complex problems to higher-level support when necessary.
- Deliver exceptional customer service with a professional and empathetic demeanour, even in high-pressure situations.
- Collaborate with cross-functional teams to optimize support workflows and enhance the overall user experience.
- Utilize structured questionnaires for preliminary troubleshooting to assess the required level of support and initiate Level 2 support ticket creation.

TSA Group

Perth, WA

Inbound Customer Service Representative

01/ 2023 – 07/2024

- Fostered genuine connections with customers by carefully assessing each unique situation.
- Systematically gathered and documented customer requests and data to streamline operations.
- Addressed customer phone calls promptly and responded to user emails in a timely manner.
- Delivered comprehensive product information to customers, ensuring informed decision-making.
- Resolved a variety of common issues, including username and password problems, menu navigation challenges, hardware and software verifications, installation hurdles, and setup issues.
- Analyzed, troubleshooted, and diagnosed problems promptly, providing effective repairs and solutions.
- Regularly tested and evaluated the performance of hardware and software programs to ensure optimal functionality.

- Provided first-level support for customers requiring routine assistance and troubleshooting, meticulously recording detailed interactions and processing account information accurately.

Internship

Akron

Web Developer Intern

Perth, WA

July 2023 – Oct 2023

- Built and implemented user interfaces using JavaScript and Angular.
- Developed efficient JavaScript code and utilized HTML and CSS.
- Created adaptable interfaces for online applications.
- Conducted performance tests and product-analysis tasks.
- Collaborated with cross-functional teams to ensure high application performance.
- Identified and troubleshoot issues with front-end code.
